RE: Revised Label for Green Light® BT Worm Killer
EPA Reg. No.: 73327-9
OPP Decision Number: D468015

Dear Mr. Feinberg:

The Agency has reviewed your request to amend the Green Light® BT Worm Killer label to update the strain identity, EPA Reg. No., precautionary statements, first aid statements, phone numbers, warranty statements, company address and listed marketing claims.

The label amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit two (2) copies of the final printed labeling prior to releasing the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA § 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions. If you have any further questions regarding this, please do not hesitate to contact Susanne Cerrelli, at 703-308-8077 (cerrelli.susanne@epa.gov).

Sincerely,

Kimberly Nesci
Chief
Biopesticides and Pollution Prevention Division
Microbial Pesticides Branch (7511P)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

FIRST AID
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
PRODUCT INFORMATION Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact (877) 478-3711 for general information and/or medical information.

ENVIRONMENTAL HAZARDS: To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

This product must not be applied within 300 feet of any habitats of endangered or threatened lepidoptera (i.e. moths or butterflies).

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION

SHAKE WELL BEFORE USING. Pour appropriate amount of Green Light BT Worm Killer into a partially filled sprayer. Shake and add the remaining amount of water. Shake sprayer occasionally during spraying. Do not allow diluted spray to stand in sprayer for more than 12 hours. Good under and upper leaf coverage is essential since the worm must ingest Green Light BT Worm Killer. Susceptible worms stop feeding after eating Green Light BT Worm Killer, but may otherwise appear to be unaffected for several days. Re-apply after heavy rains. Best results are obtained by treatments when worms are small; they must be actively feeding on treated, exposed foliage. You may apply Green Light BT Worm Killer up to and on the day of harvest. Kills worm and caterpillar stage insects.

VEGETABLES AND FRUITS: Mix 1 tablespoon of Green Light BT Worm Killer in 1 gallon of water and apply to all plant foliage. Apply at first sign of infestation and repeat at weekly intervals when needed to maintain control of the following pests: Tomato Hornworm on tomatoes. Cabbage Looper on broccoli, cauliflower, collards, kale, mustard greens, turnip

greens, cabbage, celery, lettuce, melons and tomatoes. Imported Cabbage Worm on broccoli, cabbage, cauliflower, collards, kale, mustard greens and turnip greens. Omnivorous Leaf Roller on grapes. Fruit Tree Leafroller and Orange Dog on oranges.

SHADE TREES AND ORNAMENTALS: Mix 4 teaspoons in 1 gallon of water in a hand sprayer or a hose-end sprayer. Apply at the first sign of infestation and repeat at weekly intervals when needed to maintain control. Apply to thoroughly cover all foliage surfaces of shade trees and ornamentals for control of the following leaf-feeding worms: Spring Cankerworm, Fall Cankerworm, Fall Webworm, Bagworm and Tent Caterpillar.

STORAGE AND DISPOSAL [icon]

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in a locked storage area out of reach of children and pets. Store in original container.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling, if available.

If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Notice: To the extent consistent with applicable law, buyer assumes all risks of use, storage or handling of this product not used in accordance with directions.

Swiss Farms [or insert sub-registrant company name] **Guarantee:** If for any reason you, the consumer, are not satisfied with this product, mail us original proof of purchase to obtain a full refund of your purchase price.
